Segment Analysis

Specs & Performance

"The Indian two-wheeler landscape stands at a fascinating crossroads of heritage and innovation. Spanning 2019 through 2023, this market has navigated global disruptions, witnessed a massive resurgence in the premium and classic motorcycle lifestyle segments, and laid the foundation for the clean-energy transition. To analyze this market is to decode the evolving lifestyle, preferences, and economic pulse of the world's largest two-wheeler consumer base."
